

Berhe Arbsie

Full Stack Developer (TypeScript)

Bremen, Germany berhe.arbsie@gmail.com +49 152 14457833 github.com/berhe123 [LinkedIn](#)

PROFESSIONAL SUMMARY

Full stack developer specializing in JavaScript, TypeScript, Next.js, and NestJS, with strong experience delivering production products built on clean architecture, quality engineering practices, and modern deployment workflows. I work across planning, technical design, and product dashboards using React, Node.js, Prisma, Docker, and related tools to turn business needs into reliable, maintainable software with a clear focus on UX and performance.

PROFESSIONAL EXPERIENCE

Full Stack Developer · [MySwooop](#) 2024 — Present · Bremen, Germany

- Developed and maintained e-commerce applications supporting product catalogs, order flows, and customer-facing experiences on a live marketplace.
- Built features for the Operation Management System to improve order tracking, status workflows, and operational visibility.
- Contributed to an AI customer support application that resolves common inquiries faster while keeping clear escalation paths.
- Delivered full stack solutions with JavaScript, TypeScript, React, Next.js, Node.js, Express.js, and Docker.

Full Stack Web Developer · [Freelancer / Self-Employed](#) 2022 — 2024 · Remote

- Built IDEAGO, an idea-to-execution platform using React, TypeScript, Next.js, and Node.js.
- Developed Lango, a language-learning web application focused on practice flows and progress tracking.
- Designed and shipped AI CV Builder with a React TypeScript frontend, NestJS backend, and Prisma.
- Owned projects end to end: requirements, architecture, implementation, and production deployment.

Full Stack Developer · [Farka ICT Solutions](#) 2019 — 2022 · On-site

- Developed BrandCast, a brand storytelling web application with React, JavaScript, and Next.js.
- Built and maintained college Attendance Management systems for tracking, reporting, and admin visibility.
- Delivered consulting, ERP, and HR systems using React, JavaScript, Express.js, PostgreSQL, and MySQL.

SELECTED PROJECTS

- **MySwooop E-commerce** — Production buy/sell marketplace for refurbished electronics (React, Next.js, Node.js, Express.js, Docker).
- **AI Customer Support** — Conversational support flows with escalation-ready UX (TypeScript, React, Next.js, Express.js).
- **IDEAGO** — Idea prioritization and execution planning platform (React, TypeScript, Next.js, Tailwind CSS).
- **BrandCast** — Brand storytelling and campaign presentation web app (React, Next.js, Express.js).

TECHNICAL SKILLS

Main stack: TypeScript, Next.js, React, NestJS, Docker
Frontend: React, Next.js, Tailwind CSS, TanStack Query, Zustand, Redux, Zod, i18n

Backend: NestJS, Node.js, Express.js, JWT
Databases: Prisma, PostgreSQL, Redis, MySQL
DevOps: Docker, GitHub Actions, Nginx, Git
Other: Jest, Sentry, WebSockets, Jira

EDUCATION

MSc Computer Science and Software Engineering Constructor University, Bremen, Germany 09/2023 – 05/2025	BS in Information Technology (Engineering) Mekelle University, Tigray, Ethiopia 09/2012 – 05/2017
